Assessor Comments	A good quality line of Angus x Angus Heifers. Heifers display good length, frame and bone for age. With all the hard work of weaning and being taught to eat out of feeders done, these heifers still offer the potential buyers plenty of compensatory gains. Cattle are only for sale now due to on going drier seasonal conditions in the area. Vendor has tried to ensure heifers are empty by treating them with Ovuprost injection and would suit potential buyers looking to replenish their breeder herds or looking for cattle to grow out to domestic/heavy feeder weights or export slaughter weights. Please note the vendor has another lot of Steers in the same sale.
