The Steers had a bit of run in them when put in the yards but we did run them straight in and start assessing. A few were a bit stirry more wanting to get out of your road than take you on. The odd Steer did not want to settle but moved off quietly when let out of the yards. A few didn't like the crush but nothing unusual there. Overall they were easy enough to handle.

Handled With	Bikes , On foot , Vehicles
Assessor Comments	Good quality Angus Steers that go back to one of the oldest Angus herds in the district. Steers that have the frame and constitution to put a lot of weight on. They will jump ahead on grain or grass .Due to a very tough 12 months and protracted calving there is a weight variance as you can see in the video's. The season has closed in completely so they have to go and you are not paying for condition. There is another lot of heifers from this vendor also in this sale.
