Assessor Comments	Buyers, This line represents the lead 800 out of 2800 ewe lambs, sired by high quality cloven hills sires. These ewes present very well having been weaned 2 weeks prior to assessment. They are true to type and in very good condition. Vendor is offering to organise to get these ewe lambs shorn at buyers expense prior to trucking. However this must be discussed prior to the sale as it will mostly likely cause the delivery period to be extended. Please note some ewe lambs are dirty in the back end. These ewe would be ideal replacements for somebody looking to add to an existing flock or somebody getting into the bred.
