Handled With: Bikes , Dogs

Notable Traits

	Traits
2 Head	Old eye scarring (1 eye only). Not detrimental in assessor's opinion
2 Head	Small amount of white on udder/belly behind navel

Assessor Comments: A quality line of vendor-bred Angus heifers, representing 28 years of dedicated breeding and incorporating some of the highest-quality Reiland Angus genetics available. The Reynolds family have consistently purchased the top-end sires from Reiland Angus sales, with a strong focus on growth, positive fats, temperament and fertility. These heifers are an excellent reflection of that long-term breeding program and present an outstanding opportunity for producers seeking to introduce proven genetics into a self-replacing herd. As potential breeders, these heifers tick all the boxes, offering the opportunity to develop into highly productive females with the capacity to deliver significant genetic gain. Importantly, Mount Hugel cattle also have a proven history of performing exceptionally well on feed, making them highly sought after by repeat feedlot buyers. The Mount Hugel herd is regarded as one of the leading herds in the Adelong district, and this is a genuine opportunity to secure quality Angus females backed by generations of proven genetics, performance and careful selection. Buyers please note: These heifers were assessed as a group of 48 head and are being offered in two lots of 24 head. Both lots will be delivered as a run of the gate by the selling agent.
