Assessor Comments	Tops of the drop vendor bred white dorper ewe lambs. Buronga Pastoral have been involved in White Dorpers since 2002. These lambs have been selected on shedding ability and high growth rates. They are the progeny of years of selection with a strong focus on shedding ability, fertility and worm resilience. They have no special treatments and have stood up well in a trying season. These ewe lambs are showing the strong breed attributes of shedding, depth and length of body as well as structural soundness. These lambs have never had the opportunity to a ram. They have the maturity at 10-11 months of age making them ideal to join for a spring lambing with optimal day length approaching. These lambs come highly recommended for anyone wishing to start out or add to their breeding program. Should you require any additional information please call.
