Assessor Comments	A very nice line of Eagle Hawk bred steers that have only come out to the west due to the seasonal conditions back home in Merriwa earlier in the year. This is one line of 3 that are available today and will be drafted as a run out of the gate at delivery. These steers have adapted very well to the change of environment and feed type (having been weaned at an earlier age than normal and a lower body weight), proving their ability to thrive in any region they may end up in.
