Assessor Comments	455 Shorn store lambs. Approximately 50% are WS x composite lambs and 50% are Composite x Composite. All lambs have been weighed between 38-47kg to average 41.2kg full. They are July/Aug drop and were shorn in the first week of Jan. All of the composite x composite ewe portion has been removed only leaving the WS x Comp ewes, the rest are wths. They are in forward store condition and have the frame to continue into quality weighted lambs. They are just starting to 'shit' up with the green pick available. Good quality lambs at the right weight to go onto feed.
