		B (66-70cm)	50%			Light	20%	FAQ	50%
		C (61-65cm)	20%						
Assessor Comments	An outstanding line of 475 Merino Wether Hoggets Aug/Sept 2021 being offered by the Kealey family of Curlew Merinos. These wethers have been recently shorn and cut 5.4 kg of bright white wool at 11 months growth showing the characteristics of which type of sheep the Kealey family are trying to produce. Wethers are medium to large frame and average 48 kg. These Wethers would make fantastic wool cutters going forward or given the right opportunity will fatten quickly into light export wethers which have been consistently achievable in the past off stubbles. Wethers are sound in the feet with the property having no history of scald which is part of the breeding traits of Curlew Merino's. The Kealey Family are offering a total of 1,670 Merino Hoggets. The Kealey family are Responsible Wool Standards Certified which is a program that helps sheep farmers meet consumer, retailer, and brand demands. The standard certifies they meet rigorous animal welfare and land management requirements.
