Notable Traits

	Traits
3 Head	Minor wort - around face/neck.
3 Head	Old pink eye scarring not affecting vision or performance.
4 Head	Ring worm around face.
2 Head	Showing pizzle - typical of breed.
2 Head	Weepy eye showing early signs of pink eye due to the time of the year.

Assessor Comments: Angus and Angus cross steers that are currently on agistment and with the agreement nearing an end these cattle are to be sold. They were sourced from northern NSW and southern QLD and have acclimatised and have done well since arriving. A tail on weight and any off bred types have been removed to present a line of steers that are suitable to fatten for feedlot entry or a domestic kill if required. Please refer video to make your own assessment of breed content. Weighed 240-424kg full to average 303kg with a curfew applied. They are starting to lay fat cover as the feed hardens and are presenting as forward store in condition. A run of steers with plenty left in the trade to value add and take onto the next level. Should you require any further information please call. Please note vendor is offering heifers in today's sale also.
