Assessor Comments	Mepungah Pastoral Co. presents an outstanding line of 668 Composite wether feeder lambs, June/July 2026 drop. Featuring pure Chrome genetics, these lambs were weaned on 1st October and are fully grain trained. At weaning, they received their second 6-in-1 vaccination and a triple-combination drench. The 'Mepungah' lambs would usually be grown out to export weights but due to tough seasonal conditions they are being offered for sale as an excellent feeder lamb opportunity. A quality line of lambs that come with my highest recommendation!!
