| Assessor Comments  | A small line of young heifers PTIC to Angus bulls. Cattle were purchased EX Dubbo region. Good to handle during assessment one head got slightly agitated once isolated in crush but settled when returned back to the mob. Given the right conditions and treatment these heifers will power along to make good future breeders. Intending buyers please note pregnancy certificate is in photos. |                         |         |
