Assessor Comments	Two very neat lines of quality Haddon Rig blood wether lambs, which have had approx 13% of the tail taken out. These wethers have good stretch and growth for their age with a very good 50mm skin. They were trail fed barley prior to weaning and have had access to self feeders in the paddock since weaning. These wethers are ideal to be fed on for the trade or to grow out into top quality woolcutters. The Wise family have been on Haddon Rig bloodlines for around 50 years. Please note these lambs are being offered in two lots of 265 as a run out the gate
