Assessor Comments	An excellent line of Charolais and Charolais cross cows and calves that have been station mated back to the Te Mania Angus bull for 9 weeks. These cows are in forward to fat condition with a weight range of 586kgs to 836kgs and average 708kgs. Majority of the calves show great bone and shape with 1 calf being a week old and 2 calves being dryer in the coat. Cows and calves are only for sale due to drying conditions in the local area. This is a great opportunity to trade cows and calves with many options. Please bid with confidence these cows and calves are priced to sell and show great value for money.
