Assessor Comments	A very attractive line of young wether lambs that are shorn and ready to respond to grass or grain feeding. They present in strong store condition and have ample bone and style to mature into quality lambs. From a medium woolled Poll Merino flock with an average micron of 19 across the mature sheep. This group represents a run out the gate of 300 lambs at delivery from a line of 1860 lambs that present as an even and consistent line. Although poll bred it is estimated that approximately 8% of the lambs have soft wether horns. Note - The Vendor has 10 lines of lambs on offer is the catalogue
