Assessor Comments	65 (Run out the gate of 130) Angus Heifers AI'ed to calve start of September!! A very nice line of heifers AI'ed to ARUBIAL ANTICIPATED Q0014 (AI) (ET) . Heifers are very well bred out of very good cow herds purchased locally out of the Central Tablelands spring sales with no expense spared on buying quality heifers!. Heifers targeted for this program and are showing great length depth and bone to them, they will continue to develop into great cows into the future. A great opportunity to put a very good line of Angus heifers together for the F1 job, joined up to the top Arubial Wagyu bull with link and figures attached. Vendor is offering another 5 lots of similar heifers in same sale, opportunities don't come much better!
