Assessor Comments	Offering 300 Composite ewe lambs/hoggets as two lots of 150 (run out the gate). Based on Kiranda & Karrawarra genetics, they aim to breed robust sheep with a mature ewe weight of 70-75kg capable of weaning 160-180% of lambs. They all scanned in lamb after a 5 week joining earlier in the year. Majority of ewes were deemed to be dry at lamb marking & a small percentage of ewes had very late lambs weaned off them 3 weeks ago. Ewes were OJD & Scabby Mouth vaccinated at marking & received a Cydectin Long Acting back in August. A wonderful opportunity to purchase impeccably well bred young ewes with a reputation for productivity & longevity! ** Ewes will be reserved at $300 & will not be sold prior to auction! Vendor also has another 418 of the top draft in this sale.
