Assessor Comments	Buyers a great opportunity to secure a 3 in 1 package. A good 4 deck line of young to middle aged predominately crossbred cows with Santa and Angus Composite calves at foot and rejoined to Angus Composite Bulls since 15 November . Cows were purchased as PTIC from Central Western Qld and have been running in Mulga country since, doing a great job on their calves with a good % weanable at 154kg avg after an overnight curfew off mum. Cows are in the prime of their life and have the quality to be an asset to most breeding herds. Please note 1 cow had slight blue blight scarring in 1 eye & several cows showing slight fly rub marks not considered detrimental, one heifer calf has slight hernia in navel. For the Organic buyer all calves are USDA NOP Organic certified.
