Vendor Comments	final dispersal of breeding ewes
Joining Details	Not Station Mated
Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.
Assessor Comments	Due to the family farm being leased, the rare opportunity to purchase a magnificent run of 1st cross crusader ewe lambs has become available. The Miller family has been using Lambpro genetics for the last 17 years with a major emphasis on fertility, weaning weights and positive meat traits. The improvement and quality of their sheep can be seen in the presentation of these ewes. These ewes are the result of joining carefully selected crusader rams which are full shedders, while still displaying the positive meat traits and fertility of their pure primeline counterparts. Primeline ewe mothers were chosen for their naturally plain body traits displaying bare bellies, necks and breach. As seen in the photos this has resulted in well advanced shedding traits for a 1st cross lamb. Ewe lambs are a May/June drop and have been shorn in late September. The Miller family have been renowned for selling high-quality fat lambs for many years with the progeny of these ewes generally sold as suckers to local domestic abattoir, Breakout River Meats or grown into export and heavy export lambs. The body of these ewe lambs at their age demonstrates the quality of their breeding and their suitability for a range of fat lamb operations. Please note these ewes are Lambpro Certified, and their progeny would be Willowbend Eligible, for Lambpro members They are NSM, ready to join to the rams of your choice and should produce a power of lambs going forward.
Assessor	**Adam Chudleigh (Level 1 Accredited)** Phone: 0459 533 166
