Excellent	100%	Plain	100%

Assessor Comments	205 Primeline ewe lambs that present very well and are carrying good body weight and freshness going into the summer. Kennys Creek invested heavily into Primeline genetics several years ago to establish their current Primeline flock, and the results of that really show this year. All 2026 progeny have produced excellent early growth, with the start of their trade lambs being sent to the trade prior to being 4 months old. Kennys Creek will be offering 615 ewe lambs in total in same sale. # Please open attachment for further Vendor comments
