These heifers were originally on the road as weaners so have had plenty of horse, dog and bike work. They flow easily through the yards with the odd heifer becoming nervous when singled out.

Assessor Comments	A line of 41 PTIC No.8 and No.9 Heifers which are preg tested in calf to Killkenny Charolais bulls. These heifers have been well handled with dogs, bikes and horses and are predominately moderate frame. Please note there is one calf already in this mob with the mother being the lightest heifer at 370kg. The same vendor has 2 other lots of PTIC heifers in this same sale.
