Assessor Comments	A line of Brahman Heifers PTIC to Brangus & Brahman Bulls, at the assessment the Heifers weighed from 312-492kg to average 410kg with a projected delivery weight of 393kg and are 1.5-7.5 months in calf. The Heifers were purchased out of the Richmond area to become apart of the Vendors Cow herd, although an unforeseen change in programs has meant the Heifers are no longer required. A good opportunity to purchase a large run of one mark PTIC Heifers.
