These cattle were easy to handle through the yards. One heifer got slightly agitated in the race and wanted to rush through the crush, she settled quickly when back with the mob. The calves handled nicely through the yards and crush given their age.

4 Head	Fly marks around eyes

Assessor Comments	On offer is a nice line of 7x7 Wagyu heifers/young cows and calves. These cattle are well handled and have a quiet temperament. They are a tightly aged mob of 2-3.5 years old, all branded #0, bar one which was mouthed to be a milk tooth. A Crossbred Wagyu Test was done with breed proportion results between 62% and 87%. These results are indicative of purebred Wagyu's but guarantee they are F2 and F3 or greater quality with one possibly being an F1 but likely greater. (See link for CWT explanation) The calves at foot are sired by a GINJO A326 bull. This mob originates out of Gina Rinehart's herd, the vendor had DNA tests done which found BLACKMORE AIZAKURA F100 and SUMO CATTLE CO MICHIFUKU N185 bloodlines. These heifers have not been with a bull and are ready to join to the sire of your choice. One heifer was bought as a PTIC and has a 11 month old calf, the rest of the calves are under 2 months old and average 43kg.
