Assessor Comments	A nice line of Angus heifers providing well for their young calves. Heifers present in a store condition and have the ability, if given the chance to grow out into nice cows for the future. Calves are 2- 10 weeks of age and average 95kg and growing nicely, Heifers calved with ease and unassisted as they were joined to LBW Angus sires. With all the hard work of calving down future breeders already done, this line of heifers and calves offer a excellent opportunity for the incoming purchaser to put together a good run of heifers not rejoined. For first calf heifers in store condition they are doing a great job on their calves. Please not 5 heifers noted with white under the belly, 1 heifer with a blue eye. Please note same vendor has 150 heifers & calves in total in the same sale.
