Assessor Comments	An excellent line of classed in Angus cows PTIC for an Autumn calving. Proudford Agriculture Co have been purchasing bulls off Reiland Angus Stud for the past 15 years their focus has always been on positive fat, low birth weight and 400 day growth. The quality genetics show in these cows which are well grown and in ideal condition for this stage of the pregnancy. They are deep bodied large frame cows that would be an asset to any Angus herd and will make excellent matrons for years to come. NB: 2 cows with a blue eye (Pinkeye scarring).
