Cows were very good to handle in yards. Odd cow stirred up in crush but settled back into mob quickly. Calves were typical of young weaners. Bit runny but would quieten quickly with handling.

Assessor Comments	An excellent run of NSM Angus cows with fresh, sappy calves at foot. Cows are sired by top quality Anvil & Alpine Angus bulls with Rennylea and Jarobee Angus calves at foot. Cows are presenting in forward/prime condition, showing the quality season being had. Although these cows are in their twilight years, they would make a welcome addition to any true Angus breeder or are an ideal article to trade. Cows are supplying plenty of milk to unmarked calves. Predominantly large frames cows with plenty of cover for a later kill job. Please see mouthing details. Please note: 3 cows with white on flank/udder. One cow with white spot on brisket. One cow with longer toe (not detrimental).
