Assessor Comments	"Opportunity to put a line of 43 Heifers and Calves together". Split for calve age and sire. A neat and well presented line of young cows with their first calf's at foot and whole life infront of them. All the hard work has been done and the calves are NOT marked yet but smashing along. The heifers present in store to foward store condfition, and are just starting to restore their own condition. They were purchased as a line of PTIC heifers Bongongo breed and blood. With the Bongongo emphasis on breeding moderate, fertile females that allow higher stocking rates as well as naturally easy doing animals. One heifer has very slight pink eye scar in two eyes however can see quite well and operate, not detrimental - One heifer noted to have a slight lump from previous grass seed issue.
