Quiet: 16 head Slightly Stirry: 1 head	Quiet: 15 head Slightly Stirry: 2 head	Temperament not assessed in Paddock

Cattle were predominantly quiet in yards with only one being slightly unsettled whilst being weighed.

Handled With Bikes , Vehicles

Assessor Comments EU Accredited - A great line of future breeder PTIC black baldy heifers. A very even line ranging from 428kg - 492kg to average 467kg full weight at assessment. Preg tested to low birth weight Hazeldean and Te Mania Angus bulls. Vendor is a longtime breeder with over 50 years of using quality bloodlines & investment in genetics. Heifers are only being sold as are surplus to needs and herd numbers. Heifers present in strong healthy forward store condition. They carry above average shape, bone, length of body & breed type. They are roomy and appear to be in ideal shape for ease of calving. Previous buyers are always keen to re-purchase these cattle which gives confidence that they are easily managed and perform. They have a short calving window and will be some of the first to calve in 2022. This vendor has 2 other lines of PTIC heifers in this same sale totaling 49 all up. Highly recommended heifers from a breeder that aims for quality.
