Cattle were predominantly quiet in yards whilst being weighed and assessed.

Handled With: Bikes , Vehicles

Assessor Comments

EU Accredited - A great line of future breeder PTIC Poll Hereford heifers. A very even line that present in forward to prime condition to average 510 kg at assessment. Preg tested to low birth weight Hazeldean and Te Mania Angus bulls. Vendor is a longtime breeder with over 50 years usage of quality bloodlines, including Wongawilli, Vena Park Hereford bloodlines. Heifers are only being sold as are surplus to needs and herd numbers. Heifers present in strong healthy forward store condition. They carry above average shape, bone, length of body & breed type. They are roomy and appear to be in ideal shape for ease of calving. Previous buyers are always keen to re-purchase these cattle which gives confidence that they are easily managed and perform. They have a short calving window and will be some of the first to calve in 2022. This vendor has 2 other lines of PTIC heifers in this same sale totaling 49 all up. Highly recommended heifers from a breeder that aims for quality.
