Fairly sensible females that have received plenty of handling. Have been trucked out on to agistment properties throughout floods and brought home again. All led up the race well and stood sensibly on the scales. Just the odd heifers getting slightly anxious.

Handled With	Bikes , Dogs , On foot , Vehicles
Assessor Comments	Females that would have been retained and calved down, unfortunately due a change in circumstances. These females are now being offered for sale. Purchased direct Acc the Breeder from Ottway, these females carry years of pure Te Mania genetics. PTIC to high-end select Te Mania sires for a short Mid April - Mid May calving. This is an ideal line of females for anyone wanting to introduce some very smart genetics in to their program. Or calve down & take advantage of the buoyant Heifer & calf market. Buyer Notes. Both gestation periods photographed as a group. These females walked 14km to the yards & received an overnight curfew - please consider this in your delivery adjustments. 3 females presented with a white patch on their flanks/udders & 1 blue eye, not deemed detrimental. Please see photos and video for full contentment.
