Fairly sensible females that have received plenty of handling. Have been trucked out on to agistment properties throughout floods and brought home again. All led up the race well and stood sensibly on the scales. Just the odd heifers getting slightly anxious.

**Assessor Comments**

Females that would have been retained and calved down, unfortunately due to a change in circumstance. These females are now being offered for sale. Purchased direct Acc the breeder - S Chisholm, from a Team Te Mania run operation. PTIC to high-end select Te Mania sires for a Mid February - Early April calving. This is a very stylish line of females for anyone wanting to introduce some superior genetics in to their program. Or calve down & take advantage of the buoyant Heifer & calf market. Buyer Notes. Both gestation periods photographed in a group. These females walked 14km to the yards on Thursday at their agistment property and were trucked home, weighed and assessed on the following Monday - please consider this in your delivery adjustments. 3 females presented with a white patch on their flanks/udders & 1 with a blue eye, not deemed detrimental.
