I have noted that the temperament of the majority of these cows is stirry. A couple of head fizzed up when isolated in the crush but then returned to calm down once apart of the mob. A factor that may have stirred the cows up is them being preg-tested right before their assessment. Vendor has noted that the cows have never been problematic to move in the paddock.

Assessor Comments A neat line of pure bred Yarram blood 4 year old Hereford cows. PTIC 2-4 months to Hicks Composite Angus Bulls. Large Framed cows that are proven mothers & breeders. Selling due to being behind the vendors normal joining period. Buyers please note; one cow has a partially cloudy eye that is considered non-detrimental.
