Cows handled extremely well.Cattle yards are and old dairy not setup up for beef but cows where still a pleasure to handle.

Handled With: On foot

Assessor Comments: A small line of PTIC young cows , these cows really catch your eye, moderate farme neat body cows. These cows handle very well , type of cows that I would class right up there with some of the better Angus cattle I've assessed. These cows would make an excellent starting herd or be a great addition/top up to an established herd.
