|                    | Fair cows to handle. Worked through the yards in an ok manner throughout the assessment process. Do have a tendency to get a trot up. Not house cows but not stupid either.                                                                                                                                                                                                                                                                                                                                                                                                                 |                                            |                                        |

| Assessor Comments  | A nice tidy line of Brangus & Brangus X PTIC cows. Showing plenty of frame and scale which shows though in their weights. Cows have been at Beaumah for two calves and are preg tested now to the Angus bulls for their 3rd in a tight calving period. Cows bought over Aplus as PTIC heifers in February of 2021. Heifers were originally bred & purchased ex Lyra Park, Capella, QLD. Lyra Park had been using Santa, Angus and Brangus bulls from various studs across QLD. Easy calving cows with the majority of their productive lives still ahead of them - well worth a close look. |                                            |                                        |
