Assessor Comments	Buyers, offered for sale are 14 PTIC Angus Heifers with their 1st calf at foot. These Angus Heifers are of medium frame and will continue to grow and mature into feminine body types while continuing to do a good job on their calves. Calves are unmarked and average 205kg in fresh condition, 4-6 months of age. Heifers are PTIC to the Angus bull and are due to commence calving end of July through until early October. Heifers were preg tested on the 28/2/23 as 40-120 days in calf. Heifers were generally quiet throughout the assessment. 3 heifers noted with small splash of white on their udders, 1 cow with blue eye. A great article of genuine 3 in 1 breeding units that are young and will continue to go forward. A suitable lot for anyone looking to enter the cattle industry or existing breeding and trading enterprises.
