Exceptionally quite cows to work with and walk through. They worked through the crush with ease and where reasonably compliant when being mouthed. Calves are quiet even though they have not been handled extensively.

Assessor Comments	25 Angus cows with 25 Angus Calves at foot. 12 Male Calves and 13 Heifer calves. Calves were not marked at the time of assessment however vendor would be pleased to mark them prior to delivery. Calves are fresh and healthy. Cows are in very forward condition and have wintered and calved very well. Cows are cleaning up in the coat with some still showing the effects of a cold winter in the coat. These cattle are very quite and great to handle. I inspected each cows feet and udder at assessment and are happy to describe them as sound.Please note there are 5 cows with a small amount of white on the udder. As stated these cows where purchased ex Team Te Mania commercial sale with the intention to retain however due to exceptional heifer numbers the vendor has decided on a reluctant sale.
