These heifers are run in large mobs for the entirety of their life , therefore are fidgety in the yards but not considered dangerous . At no stage through the assessment process did any heifers show aggression or show signs being dangerous . Heifers settled well after weighing back into their mob and moved around the yards without any issues . I consider these cattle good to handle but not 100% quiet .

| Assessor Comments | A very good even line of attractive Angus heifers that represent the use of good Bulls and culling over recent years . These heifers present in forward store to prime condition and would suit a range of requirements from prospective purchasers, ideal future breeders, feeder heifers , grow onto heavy processing weights or join as Autumn calvers as a marketing opportunity or breeder opportunity. These heifers have cleaned up in the coat and show no signs of ringworm and have clean eyes. An excellent opportunity to secure females for multiple uses . Accredited for JBS Farm assurance, Greenhams Never Ever & Gap programs , Grassfed only , Antibiotic Free. In total 2 decks of Angus heifers over 2 lots being offered as a run 26 & 25 = 51 . 1 other lot of Baldy heifers being offered in this sale. |
