Assessor Comments	Here lies a opportunity for someone to purchase a very even line of vendor bred Angus Heifers that are PTIC to a Angus bull to calve in the spring. They are out of of large frame Riverina bred cows and still more growing left in them once they calve down. I believe that a opportunity like this doesn't come around often for someone to purchase a line of well bred, Crawford blood Angus heifers like this and would have been retained by the vendor if circumstances were different. Vendor has another lot of older cows in the same sale.
