Cattle were no trouble to handle through yards, 3 females were unsettled and moved about in yards.

Handled With: Bikes , Dogs , On foot , Vehicles

Assessor Comments: EU Angus & Angus x cows July/Aug 2014 drop PTIC to Paringa Angus bulls for July/August calving. Cows had big calves weaned 4 weeks ago so still plenty of condition to regain. Anyone wanting easy care females to calve down it would be hard to look past these. Cattle weren't mouthed but confident the females have more calves in them. A drench and multimin would make a real difference to these cattle given the tough winter and feed gap through summer. 4x white udders, 2x flat in feet, some feet seen with cracks in hooves (nothing lame).
