Assessor Comments	Quality line of young PTIC Heifers, purchased out of SELX April/May Weaner Sales last year, focusing on size, breed type and bloodlines. These Heifers are showing up well in calf with a short 6 week joining to the low birthweight Bongongo bulls. Due to commence calving mid June, these Heifers present in forward store condition. Well grown, and in my opinion are in perfect condition for calving. Predominantly Renny Lea, Bongongo and Hazeldean bloodlines. Please note: 2 lots of 30 run out the gate, with 2 cloudy eyes deemed not detrimental to sale. Vendor has 2 other lots of PTIC Heifers in this sale.
