Assessor Comments	17 vendor bred Devon cross weaner heifers (heifers first calves) that have been bred on the lighter eastern country of Demon Creek and would normally be moved to our vendors better country to be fattened on crop. Only being offered for sale due to one of their better properties being sold. Weaners were uneasy at drafting and assessment but nothing showed any aggression or malice with most behaviour normal to lesser handled weaners. Heifers weighed 117kg to 194kg to average 158kg following a 16 hour curfew. Odd heifer with a wart (see photos). These cattle will do well on improved nutrition. Brother lines in same sale.
