Steers have been weaned using weaning nose rings and have been running with their mothers. They handled reasonably well for untrained weaners and settled in the yard after weighing. A few steers were unsettled in the crush.

Assessor Comments A good quality line of Wagyu cross backgrounder steers, medium to large frame and well grown for age. The steers are by an Itoshigenami bred bull, see registration details attached. Showing good bone and conformation, they suit a backgrounder to take to feeder weights. Accurate vendor information has been used in the Angus Shorthorn breed split without being able to give an absolute guarantee. Note photos and videos in this regard.
