These weaners worked well in the yards the day after coming off their mothers. They are typical of their breeding when confined but settled well in the mob. They have been on hay and yard weaned the day before assessment.

Handled With: Bikes , Dogs , Horses

Assessor Comments: A line of 86 lightweight crossbred weaner calves sold as a run out the gate of 130. This give buyers the opportunity to purchase 1-2 or 3 decks. They are soft fresh types and have done remarkably well throughout a cold wet winter and are moving forward with the season. Please note read the assessment details in relation to a few unmarked males, they have been left this way knowing that the yards will be muddy so to not harm them health wise.
