Assessor Comments	A well bred draft of PTIC Angus cows. Cows are Northern Tablelands & New England bred, featuring bloodlines of Brooksby, Raff & Glenavon. They have been AI'd to Rennyalea G420 on 23/11 to calve September. G420 has exceptional calving ease figures, is above average for growth and high carcase data being top 10% for fats and top 25% for IMF & EMA. Presenting in forward condition, cows are principally medium to large frame. A sample were mouthed with cows having very good sound mouth, with no apparent wear. Vendor offers entire draft of this age group, presenting a chance to acquire well presented, nicely bred PTIC AI joined Angus cows to calve down in spring.
