Assessor Comments	Vendor has been using Kerin Poll for the last 8 years with a lot of success and these ewes have good frame and high fertility that would suit a wool producer and to continue breeding first cross ewes out of them. Joined to Turon Hill Border rams, 20% scanned Multiple's and 80% scanned as singles. Approximately 2% had slight water damage across the shoulder and hip area, just making the wool slightly a yellow colour. Also noted where 2 with small horns. Sheep are being sold as they are surplus to requirements. Included in the sale is 1 ewe with a young lamb at foot. There is also younger yellow tag ewes in the same sale.
