Assessor Comments	Mix aged Nudie ewes, Scanned empty. The Stephens family have been breeding Nudie sheep for 5 years now. having sourced the original breeding flock direct from the Low Footprint Nudie stud. Every ram purchased is selected on Black feet, structure & shedding ability. The Low Footprint studs breeding objective is to breed robust, easy-care sheep that are worm resistant and resilient, can survive and produce in high rainfall zones. The Stephens family t fertility high on their breeding objectives, and only join for 5 weeks. Thus offering these ewes due to surplus of breeders that scanned in lamb. Ideal ewes that are a perfect way to get into the shedding breeds or to top up flock numbers.
