Assessor Comments	Genuine dispersal sale of Merino ewes. Vendors have three age groups in this sale, and are retiring from farming. Clients have been using Boorana rams for the past seven years, and these ewes have all been joined to sons of a \$130,000 Merino ram purchased by Boorana. The ewes have been station mated, and due to the unavailability of contractors, have not been scanned. The ewes are in very good order due to an excellent season in the Western District. I cannot recommend these ewes highly enough.
