Assessor Comments	The Maroola Santa steers are very good quality cattle, well grown for their age and in good forward store condition. All steers are predominately polled including only scurr. Previously the Maroola steers have a proven record with major feedlots exceeding all weight gain expectations and performance parameters. The Vendor has always purchased the best quality Rosevale Santa bulls for many years. The steers present very well, being 125 head with clean shiny coats and 21 with slightly hairy winter coats. 6 steers have a white flank. 133 are deep cherry red, 12 light red and 1 dark red brindle which blends into the mob. 1 steer is showing slight evidence of ringworm which in no way is affecting the health or appearance of the steer.
