Handled With	Steers were good to handle through the yards. The odd steer stirred up in the crush under pressure, but once released back into the mob, they calmed down. Bikes , Dogs , On foot		
Assessor Comments	Approx 127 AngusX and Xbred weaner steers for sale south of Hughenden. At assessment, they weighed 199 kg to 328 kg, averaging 263 kg. The mob consist of 62% AngusX steers, 36% Xbred steers, and 2% BrahmanX steers. There are some signs of lice in the mob, but not detrimental. They have been weaned and broken in, using bikes and dogs. These soft weaner steers have great weight for age and would be ideal for the domestic feeder market. Vendor has the heifer portion of the mob also available in this auction. Please note that separate vendor has similar steers and heifers for sale, on the same property.
