	Heifers were good to handle through the yards. The odd heifer stirred up in the crush under pressure, but once released back into the mob, they calmed down.		
Handled With	Bikes , Dogs , On foot		
Assessor Comments	Approx. 62 AngusX weaner heifers for sale south of Hughenden. At assessment, they weighed 197 kg to 404 kg, averaging 263 kg. They have been weaned and broken in, using bikes and dogs. There are some signs of lice present in the mob, and there is 1 heifer with a half tail. Both these faults are not detrimental. These soft weaner heifers have great weight for age and would be ideal for future breeders or the domestic feeder market. Vendor has the steer portion of the mob also available in this auction. Please note that separate vendor has similar steers and heifers for sale, on the same property.
