	Well handled, educated steers that worked very well through yards at assessment. A very small number were prone to panic a bit in the head bale, but settled down on their release.			
Handled With	Bikes , Horses , Vehicles			
Assessor Comments	Vendor bred steers that are out of 2 different lines of first calf heifers. Well educated, mostly very good quality steers that have enough softness to do a trade feeder steer job and enough frame and bone to also grow out to heavy export feeder weights or to Bullocks. This is the lead of the vendors steer run with the lighter end being retained at this stage to put on more weight.
